The increase was mainly due to 15,878

sqm of net additional area utilized in the third quarter of 2023, mainly related to the SH18 Phase 1, BJ23, LF15 Phase 1, HY1 and NTP1 data centers.

Cost of revenue in the third quarter of 2023 was RMB2,071.6 million (US\$283.9 million), a 10.5% increase over the third quarter of 2022 of RMB1,874.8 million and a 7.8% increase over the second quarter of 2023 of RMB1,921.0 million. The increase over the second quarter of 2023 was mainly due to an increase in utility cost as a result of additional area utilized during the quarter and seasonally higher power consumption and power tariffs.

Gross profit was RMB447.4 million (US\$61.3 million) in the third quarter of 2023, a 9.2% decrease over the third quarter of 2022 of RMB492.8 million, and an 18.8% decrease over the second quarter of 2023 of RMB551.0 million or a 6.8% decrease after excluding the abovementioned one-time service revenue in the second quarter.

The decrease over the second quarter of 2023 was mainly due to an increase in utility cost.

Adjusted Gross Profit ("Adjusted GP") (non-GAAP) is defined as gross profit excluding depreciation and amortization, operating lease cost relating to prepaid land use rights, accretion expenses for asset retirement costs and share-based compensation expenses allocated to cost of revenue. Adjusted GP was RMB1,247.3 million (US\$171.0 million) in the third quarter of 2023, a 3.8% increase over the third quarter of 2022 of RMB1,201.3 million and a 5.5% decrease over the second quarter of 2023 of RMB1,319.8 million or a 0.1% decrease after excluding the abovementioned one-time service revenue in the second quarter. the abovementioned one-time service revenue in the second quarter. The decrease was mainly due to an increase in utility cost.

Selling and marketing expenses, excluding share-based compensation expenses of RMB12.6 million (US\$1.7 million), were RMB26.3 million (US\$3.6 million) in the third quarter of 2023, a 9.7% decrease from the third quarter of 2022 of RMB29.1 million (excluding share-based compensation of RMB7.9 million) and a 14.7% increase from the second quarter of 2023 of RMB22.9 million (excluding share-based compensation of RMB9.3 million). #### Non-GAAP Disclosure

Our management and board of directors use Adjusted EBITDA, Adjusted EBITDA margin, Adjusted GP and Adjusted GP margin, which are non-GAAP financial measures, to evaluate our operating performance, establish budgets and develop operational goals for managing our business. We believe that the exclusion of the income and expenses eliminated in calculating Adjusted EBITDA and Adjusted GP can provide useful and supplemental measures of our core

operating performance. In particular, we believe that the use of Adjusted EBITDA as a supplemental performance measure captures the trend in our operating performance by excluding from our operating results the impact of our capital structure (primarily interest expense), asset base charges (primarily depreciation and amortization, operating lease cost relating to prepaid land use rights, accretion expenses for asset retirement costs and impairment loss of long-lived assets), other non-cash expenses (primarily share-based compensation expenses), and other income and expenses which we believe are not reflective of our operating performance, whereas the use of adjusted gross profit as a supplemental performance measure captures the trend in gross profit performance of our data centers in service by excluding from our gross profit the impact of asset base charges (primarily depreciation and amortization, operating lease cost relating to prepaid land use rights and accretion expenses for asset retirement costs) and other non-cash expenses (primarily share-based compensation expenses) included in cost of revenue.

We note that depreciation and amortization is a fixed cost which commences as soon as each data center enters service. However, it usually takes several years for new data centers to reach high levels of utilization and profitability. The Company incurs significant depreciation and amortization costs for its early stage data center assets. Accordingly, gross profit, which is a measure of profitability after taking into account depreciation and amortization, does not accurately reflect the Company's core operating performance.

We also present these non-GAAP measures because we believe these non-GAAP measures are frequently used by securities analysts, investors and other interested parties as measures of the financial performance of companies in our industry.

These non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tools, and when assessing our operating performance, cash flows or our liquidity, investors should not consider them in isolation, or as a substitute for gross profit, net income (loss), cash flows provided by (used in) operating activities or other consolidated statements of operations and cash flow data prepared in accordance with U.S. GAAP. There are a number of limitations related to the use of these non-GAAP financial measures instead of their nearest GAAP

equivalent. First, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted GP, and Adjusted GP margin are not substitutes for gross profit, net income (loss), cash flows provided by (used in) operating activities or other consolidated statements of operation and cash flow data prepared in accordance with U.S. GAAP. Second, other companies may calculate these non-GAAP financial measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of these non-GAAP financial measures as tools for comparison. Finally, these non-GAAP financial measures do not reflect the impact of net interest expenses, incomes tax benefits (expenses), depreciation and amortization, operating lease cost relating to prepaid land use rights, accretion expenses for asset retirement costs, share-based compensation expenses, gain from purchase price adjustment and impairment loss of long-lived assets, each of which have been and may continue to be incurred in our business.

We mitigate these limitations by reconciling the non-GAAP financial measure to the most comparable U.S. GAAP performance measure, all of which should be considered when evaluating our performance.

For more information on these non-GAAP financial measures, please see the table captioned "Reconciliations of GAAP and non-GAAP results" set forth at the end of this press release.
