

## **GDS Announces Accepted Offer to Acquire Major New Data Center in Beijing**

September 22, 2020

SHANGHAI, China, Sept. 22, 2020 (GLOBE NEWSWIRE) -- GDS Holdings Limited ("GDS Holdings", "GDS" or the "Company") (NASDAQ: GDS), a leading developer and operator of high-performance data centers in China, today announced that it has extended a legally-binding offer to acquire 100% of the equity interests in target companies which own a major data center in the Shunyi district of Beijing ("BJ14") (the "Acquisition"). The target companies are owned by a private equity fund controlled by CITIC Private Equity Funds Management Co., Limited ("CPE"), a leading alternative asset manager in China, and its affiliated parties. The offer has been accepted, with exclusivity terms agreed by both parties. The total enterprise value of the Acquisition is approximately RMB3.8 billion, with a further RMB500 million contingent on the acquisition by the target companies of the property interests in the site.

BJ14 is one of the largest and highest quality data center assets in the Beijing market. It is located adjacent to the Company's Beijing 5 data center and 8 kilometers from its data center campus comprised of Beijing 10, 11, and 12, forming a cluster in the Shunyi District of Beijing which can generate significant operation synergies. BJ14 has a net floor area of over 19,000 sqm. It is fully committed by five hyperscale customers, including a new large internet customer logo. BJ14 is fully operational and is currently approximately 68% utilized. It is expected to be fully utilized in 2022.

This transaction is subject to entry into definitive agreements as well as the completion of certain conditions precedent to the closing of the transaction. We cannot assure you that any definitive agreement will be signed or, if such definitive agreement is signed, that the conditions precedent to the closing of the transaction will be satisfied, in which case the proposed transaction will not be consummated.

"We are very excited to further expand and strengthen our position in Beijing with this acquisition," said Mr. William Huang, Chairman and Chief Executive Officer. "BJ14 is a rare opportunity in urban Beijing with large-scale and high-quality capacity and first-class customer profile. Shunyi District is a highly sought-after location by major internet companies and home to an increasing number of world-renowned hyperscalers. We will continue to pursue such acquisition opportunities with strategic value in a disciplined way, and further expand our market share."

### **About GDS Holdings Limited**

GDS Holdings Limited (Nasdaq: GDS) is a leading developer and operator of high-performance data centers in China. The Company's facilities are strategically located in China's primary economic hubs where demand for high-performance data center services is concentrated. The Company also builds-to-suit and operates data centers at lower-tier locations selected by its customers in order to fulfill their broader requirements. The Company's data centers have large net floor area, high power capacity, density and efficiency, and multiple redundancy across all critical systems. GDS is carrier and cloud-neutral, which enables its customers to access all the major PRC telecommunications networks, as well as the largest PRC and global public clouds which are hosted in many of its facilities. The Company offers colocation and managed services, including direct private connection to leading public clouds, an innovative service platform for managing hybrid clouds and, where required, the resale of public cloud services. The Company has a 19-year track record of service delivery, successfully fulfilling the requirements of some of the largest and most demanding customers for outsourced data center services in China. The Company's customer base consists predominantly of hyperscale cloud service providers, large internet companies, financial institutions, telecommunications carriers and IT service providers, and large domestic private sector and multinational corporations.
